

Safeguarding Policy

Purpose

The overall purpose of this policy, the associated policies, guidance's and service procedures is to protect the welfare of the children, young people and vulnerable adults who are involved with or living in the range of community, fostering and residential services provided by St Christopher's in the Isle of Man and in England. This policy aims to set St Christopher's Fellowship approach to keeping children safe and responding to child protection concerns.

St Christopher's seeks to

- Proactively manage risk to minimise the likelihood of any of our children or young people coming to harm.
- Achieve a culture across the organisation where every child and young person's rights to be valued, respected and treated with dignity is the standard of everyday interaction and practice.

St Christopher's believes that

- No child or young person should ever experience abuse of any kind. Every adult has a responsibility to promote the welfare of all children and young people and to keep them safe. We are committed to practise in ways that protects every individual from harm.
- The welfare of the child is paramount, as enshrined in the Children Act 1989 (England) and The Children and Young Persons Act 2001 (Isle of Man). All children, young people and adults regardless of age, disability, gender, racial heritage, religious belief, sexual orientation or identity, have a right to equal protection from all types of harm or abuse. Some children, young people and adults are additionally vulnerable because of the impact of previous experiences, their level of dependency, communication needs or other issues. Working in partnership with children, young people, and their parents, carers and other agencies is essential in promoting young people's welfare.

Scope

- This policy applies to all leaders, managers, foster carers, care bank, sessional and agency members of staff, the Council of Trustees, volunteers, students and anyone working on behalf of St Christopher's.
- This policy applies to every child and vulnerable adult in our care. A child is someone who is under the age of 18 and so has not yet reached their 18th Birthday. A vulnerable adult is someone over the age of 18.
